

YUYUN (HAYWO) HSIEH

SOFTWARE DEVELOPER | QUALITY ASSURANCE | IT OPERATIONS

403-399-8870 | ru8391@gmail.com | linkedin.com/in/haywohs | haywohs.github.io/Portfolio

PROFESSIONAL SUMMARY

Software developer and quality assurance professional with a SAIT software development diploma, hands-on Google Nest IoT validation experience, full-stack project work, and operations leadership in a high-volume environment. Brings a quality-first mindset, disciplined documentation, cross-functional collaboration, and calm problem-solving under pressure.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL

Web & APIs: React.js, Node.js, Express.js, REST APIs, JWT authentication

Data & Tools: MongoDB, MySQL, Oracle, Git, Docker, Linux, Postman

Quality & Delivery: Manual testing, test case design, log analysis, defect reporting, IoT validation, Agile collaboration

SELECTED PROJECTS

MERN E-Commerce Platform

Full-Stack Project

- Built a full-stack shopping platform with user authentication, product administration, shopping-cart workflows, and inventory-focused CRUD features.
- Designed REST APIs and MongoDB data flows using React.js, Node.js, Express.js, JWT, Git, and Docker.

Developer Portfolio & Photography Gallery

GitHub Pages

- Designed and deployed a responsive website that presents software projects, technical skills, and an online photography gallery.

PROFESSIONAL EXPERIENCE

Operations Lead / Senior Sous Chef | PowerPlay

Oct 2024 - Present

- Lead daily front-of-house and back-of-house execution, maintain operating standards, and resolve time-sensitive issues in a high-volume environment.
- Develop procedures and reporting practices that improve workflow visibility, consistency, and leadership decision-making.
- Manage labour deployment and overtime against productivity and cost targets; train team members and support performance management.

QA Engineer, Google Nest Project | Wipro

Jul 2021 - Jan 2022

- Designed and executed structured test plans for Google Nest IoT devices across Android and iOS ecosystems.
- Analyzed device logs, reproduced failures, and documented defects with clear evidence and steps for engineering teams.
- Collaborated with software engineers and UI/UX designers to investigate bugs, verify fixes, and support product readiness.

Dietitian | PerfectLine Inc.

Aug 2017 - Aug 2018

- Assessed client needs, developed individualized nutrition plans, and explained technical health information in clear, practical terms.
- Contributed digital content and marketing ideas for the company website and social media channels.

EDUCATION

Diploma, Information Technology - Software Development | SAIT

2024

Coursework included object-oriented programming, web development, databases, systems analysis, and software testing.

ADDITIONAL QUALIFICATIONS

Bachelor of Science | National Dietitian Licence (Taiwan)
